In Game

Cal

This is you.

Block Stamina

As you block attack Cal's stamina will go down. Once empty, you are open to an attack from enemies.

Stim Canisters

This number represents times BD-1 can return life to Cal.

Life

Life will drain as you take damage from enemies. Once it is empty, you will be defeated and respawn at your last Mediation Circle.

Saving, Healing, and Spending Skill Points

Meditation Circles

Throughout the game, Cal will encounter Meditation Circles. Interacting with them allows you to save your game.

Rest

While interacting with a Meditation Point, Cal can choose to Rest. This refills Cal's life, Force, and Stim Canisters. However, this also respawns all the enemies you have defeated.

Spending Skill Points

As you progress through the game acquiring experience points, Cal will gain Skill Points. You can spend these skill points at the Skill Tree in Meditation Circles.

BD-1

The Map

BD-1 can project the map anytime by pressing the M key. On the Map you can see the current mission objectives and paths to unexplored areas (orange), gates you can open (green), and gates you cannot (red). Use the map to help you find new areas to explore, or new gates to open after you acquire a new ability.

Healing

Meditation Circle.
